KEEL IS LAID FOR BIG DREADNAUGHT

Work Begun on California, Greatest War Vessel Ever Built

Mare Island Navy Yard, Cal., Oct. 25--Actual construction of the greatest vessel of war ever built on the Pacific coast began at noon today when the keel of the superdreadnaught California was laid here in the presence of a distinguished company of federal, state and municipal officials.

CORNELIUS LEHANE

is named after the Golden State and is being built in California, the ceremonies were largely attended by the Native Sons and Daughters of the Golden West. The state officers were members of the party aboard the Oregon and the members of nearby parliors were in attendance. The California Pioneers Society was also well represented.

It is the intention to launch the California in January, 1918. She will be completely and ready for a trial trip a year later.

The California's specifications are the latest ideas in naval construction, largely the result of careful study of naval engagements in the European war. The big ship has many features not to be found on ships now in service. The armoring of the vessel is planned to guard also against torpedo attacks and mines. Naval constructors believe that the ship will be impregnable against such attacks.

The super-dreadnaught will be 624 feet long, 96 feet in width and 47 feet, 3 inches deep. At her mean draft of 30 feet, 3 inches, she will have a displacement of 32,300 tons and will be capable of sustaining a speed of 21 knots an hour for twelve continuous hours.

The California's principal battery will be twelve 14 inch fifty calibre breech loading rifles. These guns are to be of an exceptionally powerful new type. They will be mounted in three, in four center line turrets, which will be heavily armored. The remainder of the armament includes twenty-two five inch rapid fire guns, four sub-merged torpedo tubes, four six pounders (mainly for saluting), four 3 inch anti-aircraft guns, two one pounder guns for ship's boats, a 3 inch landing piece and several 30 calibre machine guns.

The California's machinery is to be operated by electricity. This will be furnished by manmoth generators, driven by oil burning turbines. When completed and fully manned the California will have a complement of 35 officers and 1,023 men.

Parents who have made reading easy for themselves by getting glasses, often forget the children. How do your children hold their books when reading? If you notice anything out of the ordinary it is time for an examination of your children's eyes. I have made the study of children's eyes a specialty and have successfully corrected thousands of defective vision. Dr. M. P. Mendelsohn, rooms 209-210-211 U. S. Nat'l Bank bldg.

Wonderful laundry work--Since February the Salem Steam Laundry has been using the electric process in their washrooms. To demonstrate, see two shirts at Joe Haines' store window, 305 State street. After sixty washings they are hardly distinguishable from new shirts of the same pattern. Why not get the best laundry work for your money? It costs no more. Today is the 46th day without rain. It seems at one or two times there has been a slight precipitation in Salem, but the gauge of the Oregon City Transportation company fails to show at any time five hundredths of an inch, and this is considered by the government's weather officials as the amount necessary to break a drought. The temperature yesterday was from 60 to 33 and the river still holds at 1.1 feet below zero.

Chief of Police Welsh received a telegram this morning from Jim Jennings, of Crestmont, North Carolina, stating that he was forwarding a check for \$600 to help defray expenses of the burial of his sister, Mrs. Jesse Millet, who died in the Willamette sanitarium yesterday morning. Jesse Millet was located yesterday afternoon. He was on his way to eastern Oregon to go to work. No arrangements for the funeral have been made as yet.

At the luncheon, Benjamin Brick, the dictator, presided as toastmaster and toasts were responded to by F. S. Lampert, George Patterson, Colonel Baldwin, Donald W. Miles, Lloyd Bigdon and Frank G. Martin. The officers installed last night were: Dictator, Benjamin Brick; vice-dictator, George Frazier, inner guard, James Jacobs; outer guard, Thomas Burleson.

What is up today? This time it is hard and the advance this morning is one cent pound. In the retail market, bacon is from five to eight cents higher than one year ago, and now retails at from 22 to 35 cents a pound. Lard is four cents a pound higher than at this time last year. Flour really should be higher today as last Monday 40 cents a barrel was tacked on, and 20 cents this morning. The grocers have not as yet advanced their prices to equalize this last advance, but it is surely coming as wheat today in the Chicago market touched the \$1.36 mark, closing at \$1.82.

PRESIDENT MAKING TRIP TO MIDDLE WEST

On His Way to Cincinnati Where He Will Make Four Addresses

By Robert J. Bender (United Press staff correspondent) Long Branch, N. J., Oct. 25--President Wilson left Shadow Lawn at noon today for Cincinnati on his final swing into the middlewest before election. His train will pass through West Virginia and Ohio on the way and the president will continue his practice of greeting crowds, but will adhere strictly to his determination not to make political speeches.

In Cincinnati he is scheduled for four speeches--one in response to an address of welcome, another at luncheon, a third at dinner and last and most important a night address. It is expected in one of these speeches, Wilson will devote considerable time to the hyphen issue, taking a cue from the interest in Cincinnati's large foreign population in such a topic.

Returning from Cincinnati, the president will not make any further trips prior to November except to New York state.

Administration leaders here were elated today at Republican Candidate Hughes' speech in New York last night. They regarded his utterance as evidence that the democrats had "smoked him out," but held he has delayed speaking so long in reply to the charges that his speech will be ineffective.

Entering into the last ten days of the campaign, President Wilson is feeling entirely confident of re-election.

The street car tracks on the five blocks of the fair grounds road recently paved will also be paved, as work will begin tomorrow. The work will begin at the end of the line near the fair grounds and as the work progresses, the street cars will run only to the new paving. After the five blocks have been all paved, the cars will not run over that part of the track for ten days. Experience has taught the company that this length of time is necessary for the cement to harden sufficiently to withstand the jar of street car traffic.
